

TOR Costruzioni Elettromeccaniche P. Torresan S.R.L.

*Since 1955, flexibility and ability to
innovate in the electro-mechanics and
power electronics*

TOR

www.torresansrl.it

Founded in 1955 by the intuition of the two brothers, Costruzioni Elettromeccaniche P. Torresan Srl has grown over the years with the awareness that innovative products and high quality levels, is the unique key of success

Since 2003 Torresan is ISO9001 certified

Costruzioni Elettro- meccaniche P. Torresan

Products

Control and systems alarm devices, industrial heating devices

In recent years, from the experience and the need of better supporting customers, it has been created Tor Engineering which provides innovative solutions in power electronics

With the help of young and skilled engineers it has been introduced the product-line of active power protections against transients and lightnings

Markets

We operate in the areas of Automation, Industrial plants , T&D both for Low Voltage and Medium-Voltage, Oil&Gas, Railway, Ups, TLC

Products Lines

Alarm Indicators

Anticondensation Heating devices

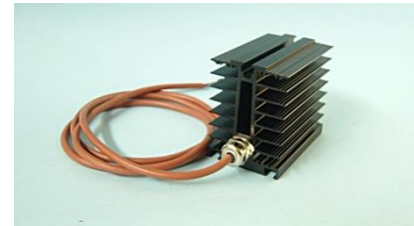

Protection devices against transients and lightnings

Torresan was founded to provide heaters and alarm indicators for industrial and distribution electrical cabinets.

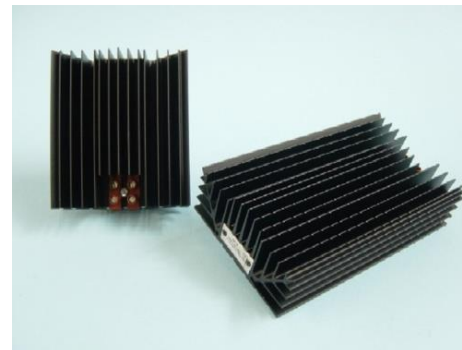

Complementary to traditional products, a new line of electronic protections against voltage transients and lightning, has been added:

Surge Defence System.

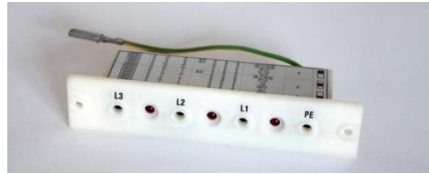

Heaters

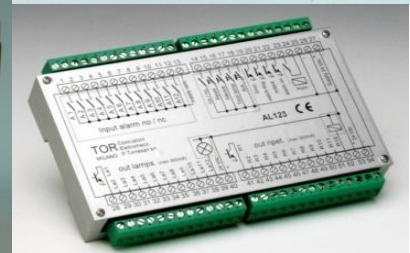

- *LV MV Energy Distribution*
- *Industrial*
- *Automation*
- *Railway*

Alarms annunciators and Indicators

- *LV MV Energy Distribution*
- *Industrial*
- *Automation*

Active Protection for lightning and voltage transients Surge Defence systems - sds

- *TLC Broadcasting*
- *Industrial systems*
- *Ups*
- *PV*
- *Railway*
